I have spent countless hours working in computers and can sell you just about anything computer-related. I work well with others and have somewhat of an extroverted personality. I work well with kids and animals and have no allergies. I strive to be a computer nerd and help assist with both backend management and frontend overseeing to help provide users with a positive experience.

Work Experience

Intern

National Center for Genome Resources-Santa Fe, NM

June 2024 to August 2024

- Helped Setup a Server System
